ABOUTTHEGALLERY: Located in the Capitol Theatre and Arts Centre in Windsor's downtown core, Artcite's street level gallery features a highly visible glass facade (windows can also be covered to accommodate installations that require controlled lighting conditions). The gallery offers optimal space for exhibits: illuminated with track lights (including halogen spots and floods), Artcite's exhibition area features 942 ft² of exhibition space with 122 ft of running wall and 15 ft high ceilings, grey linoleum floors, and one central dividing wall and column. A mezzanine office is located at the rear of the gallery. Ancillary performance, lecture and screening areas also available for special events.
